Project Objectives:

The main objective of this **work** is to **ensure effective and reliable approaches for recognition of handwritten digits and make banking operations easier and error free**.

By the end of this project you will:

- Know fundamental concepts and techniques of the Artificial Neural Network and Convolution Neural Networks
- Gain a broad understanding of image data.
- Work with Sequential type of modeling
- Work with Keras capabilities
- Work with image processing techniques
- know how to build a web application using the Flask framework.
